OBJECTIVE

To utilize my skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

EXPERIENCE

Centre for Career Counseling and Placements

May - 2022 -

Campus recruitment coordinator (CRC)
I started working as a CRC under the Centre for Career and Counseling to help my university get maximum recruitment. I also helped in managing different events regarding placements.

The Coding Club

Oct - 2020 -

Co-founder, Coordinator
I with one of my friend founded the club in our first semester. We conduct timely computer science specific activities, competitions, and awareness programs.

EDUCATION

Islamic University of Science and Technology

2019 - 2023

Bachelor of Technology, Computer Science & Engineering
8.53 on a scale of 10

PROJECTS

Management System at Weddings

Currently, I'm working with my team to build an app where people can buy, rent, or hire different products and services. The MERN Stack is being used for developing this app.

Lavoro

Built an web app to help workers like labourers, carpenters, painters, make-up artists, photographers, etc. to get jobs easily. The MERN stack was used to make this app.

Quran App

I worked for a while as a front-end developer under a team to build the app.
